

BD CONNECTOR 3.5mm (.138")

Disconnectable Crimp style connectors

Board-to-wire connector with high withstanding voltage, used for power supply of LCD (Liquid Crystal Display) back light.

Features

• Secure locking mechanism

Arm-locking mechanism as secure lock is adopted in order to prevent coming out housing.

• High withstand voltage design

Securing the sufficient creepage distance, it considers as high withstanding voltage design. (Conformed to IEC-60950)
When applying voltage rating, consideration of PC board pattern design is required.

• Low profile

Corresponding to thinner LCD, the connector height is designed as small and low profile.

• Compatibility

This BD connector is compatible BHS connector. Secure locking mechanism is available for BD connector header and socket only. Socket contact is same contact as BHS connector.
